

Do you worry about the environment?

What environmental stories have you seen on the news or read in a newspaper recently?

What is the most serious environmental problem at the moment?

How do you think the world will look in 100 years?

Do you think companies need to do more to combat climate change?

How we stop people littering our public spaces such as parks and beaches?

Do you think governments need to ban the use of single-use plastic?

Would you (or do you) donate money to an environmental group/charity?

What do you think is meant by *There is no planet B?*

Which do you think is the most important thing to do: reduce, reuse, or recycle?

How are the seasons being affected by climate change?
