

## Safe Litter Walk Activity

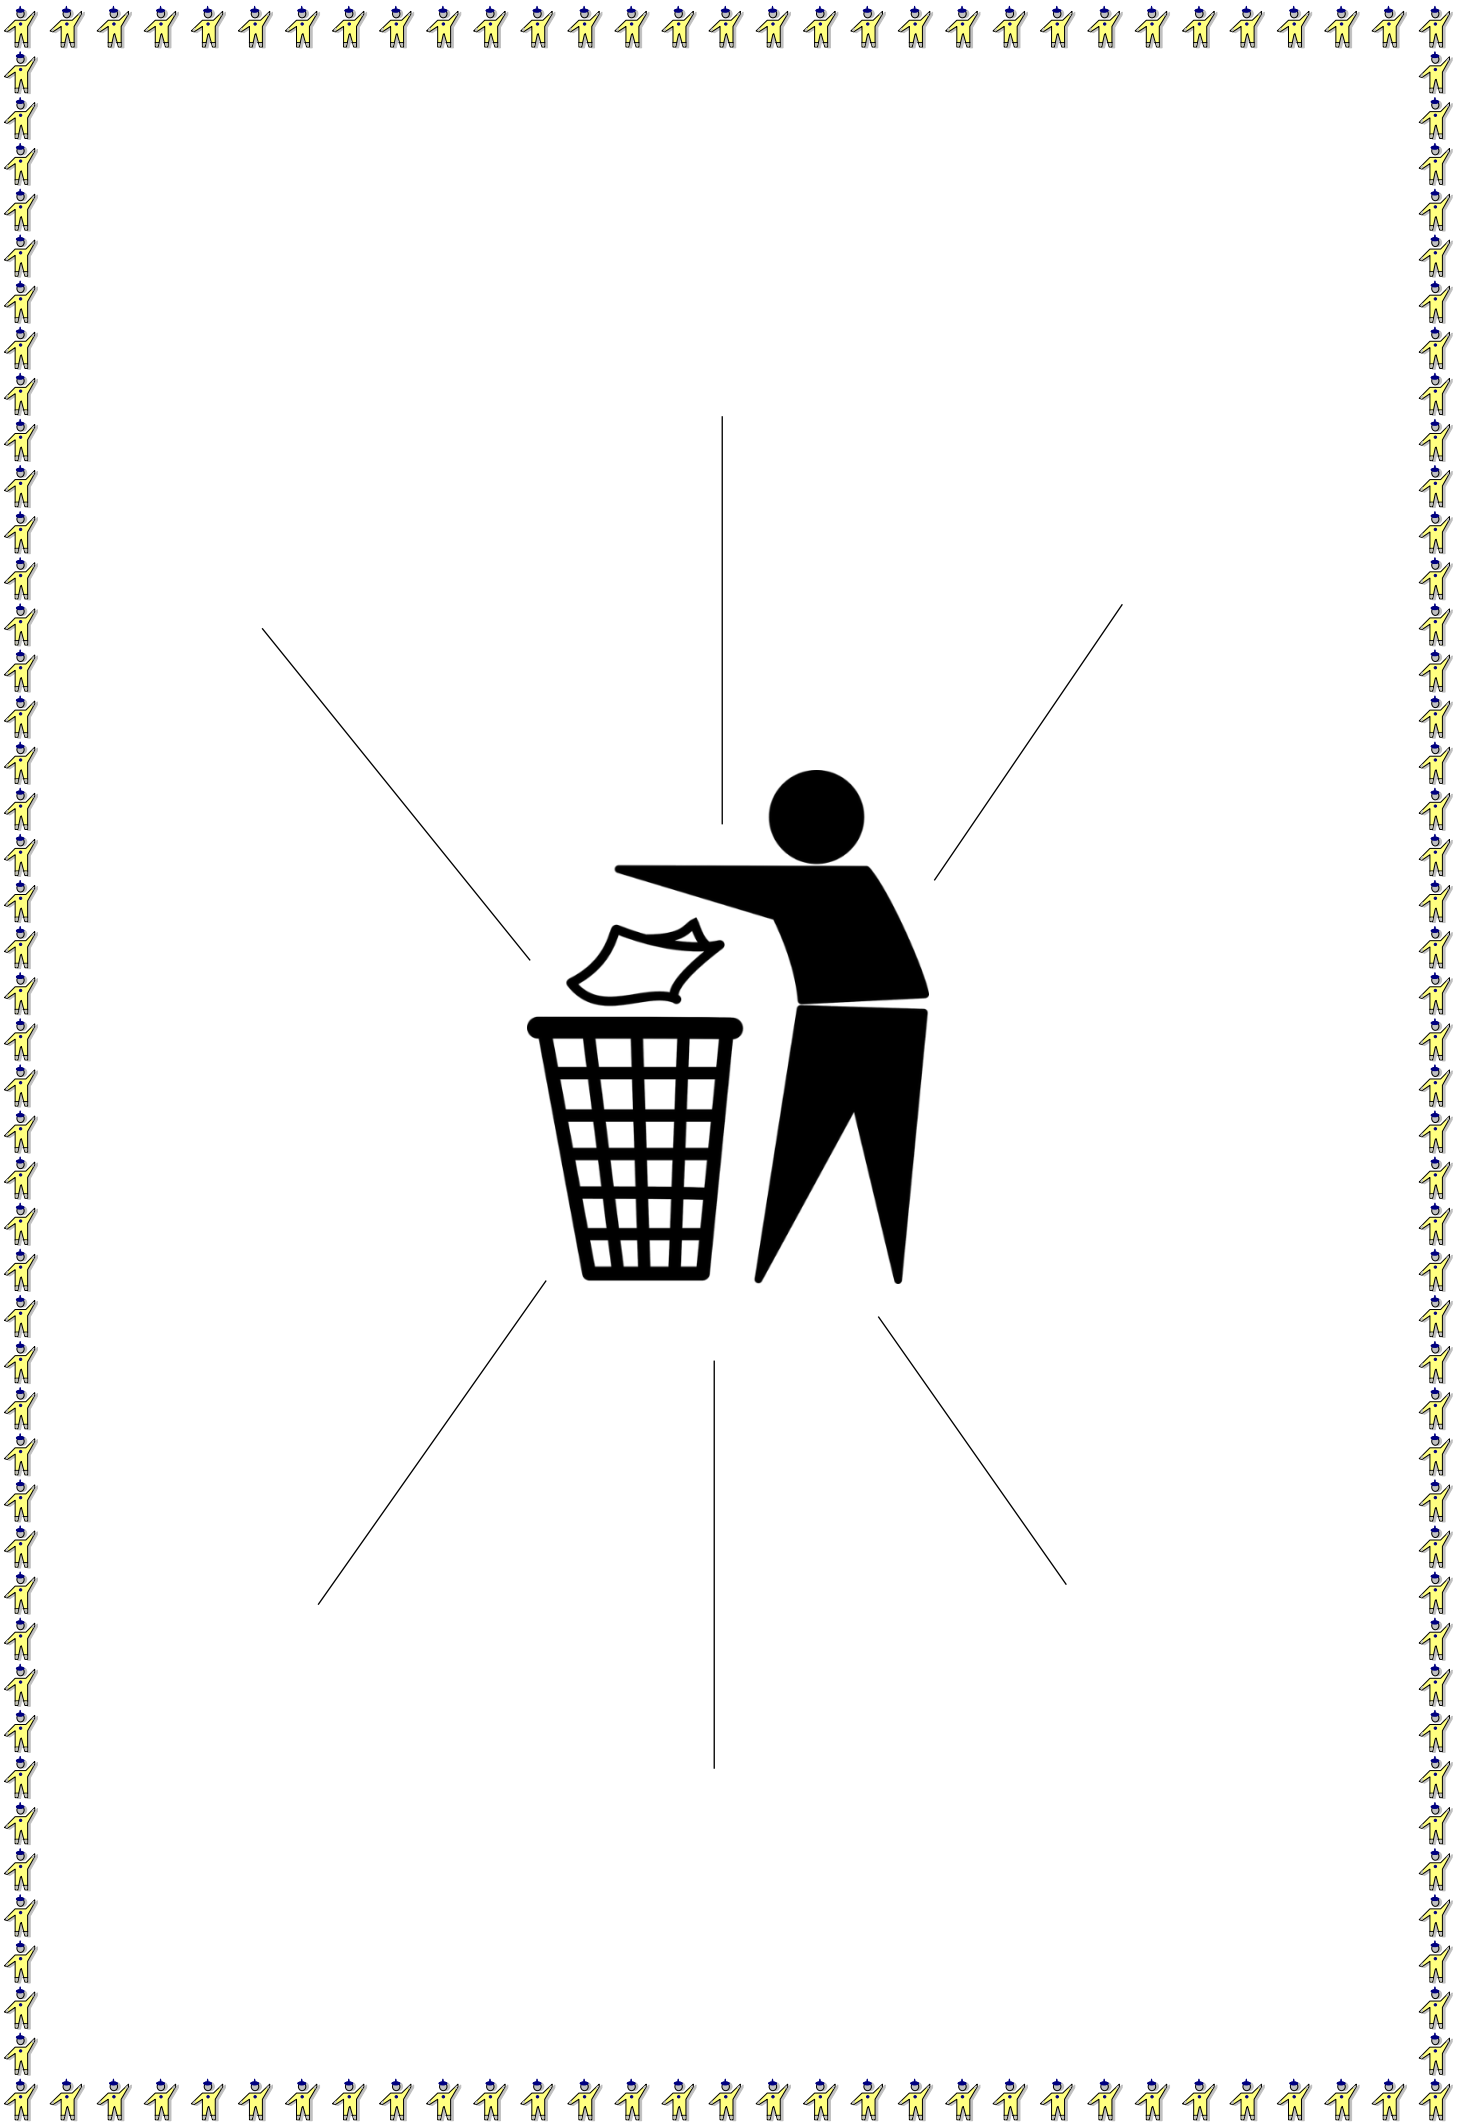

- Organising a beach clean or a park clean can be a great way to introduce younger learners to the litter problems we face.
- However, it must be carried out in a safe way.
- Talk with learners about how to be safe on a litter walk.
- Ask them to design a poster on how to be safe.

### Suggestions include:

- Always be with an adult.
- Never pick up broken glass.
- Always use a litter picker.
- Always wear gloves.
- Never go too close to the water.
