

The Earth Needs You

The Earth needs you
To change your ways,
Month by month
And day by day.

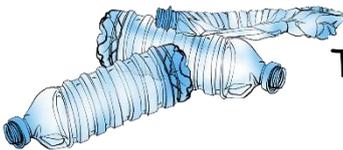

The changes are easy.
Just look and you'll see
The differences that can be made
By you and by me.

Single-use plastic
lasts almost forever.
It might be cheap
But it's not very clever.

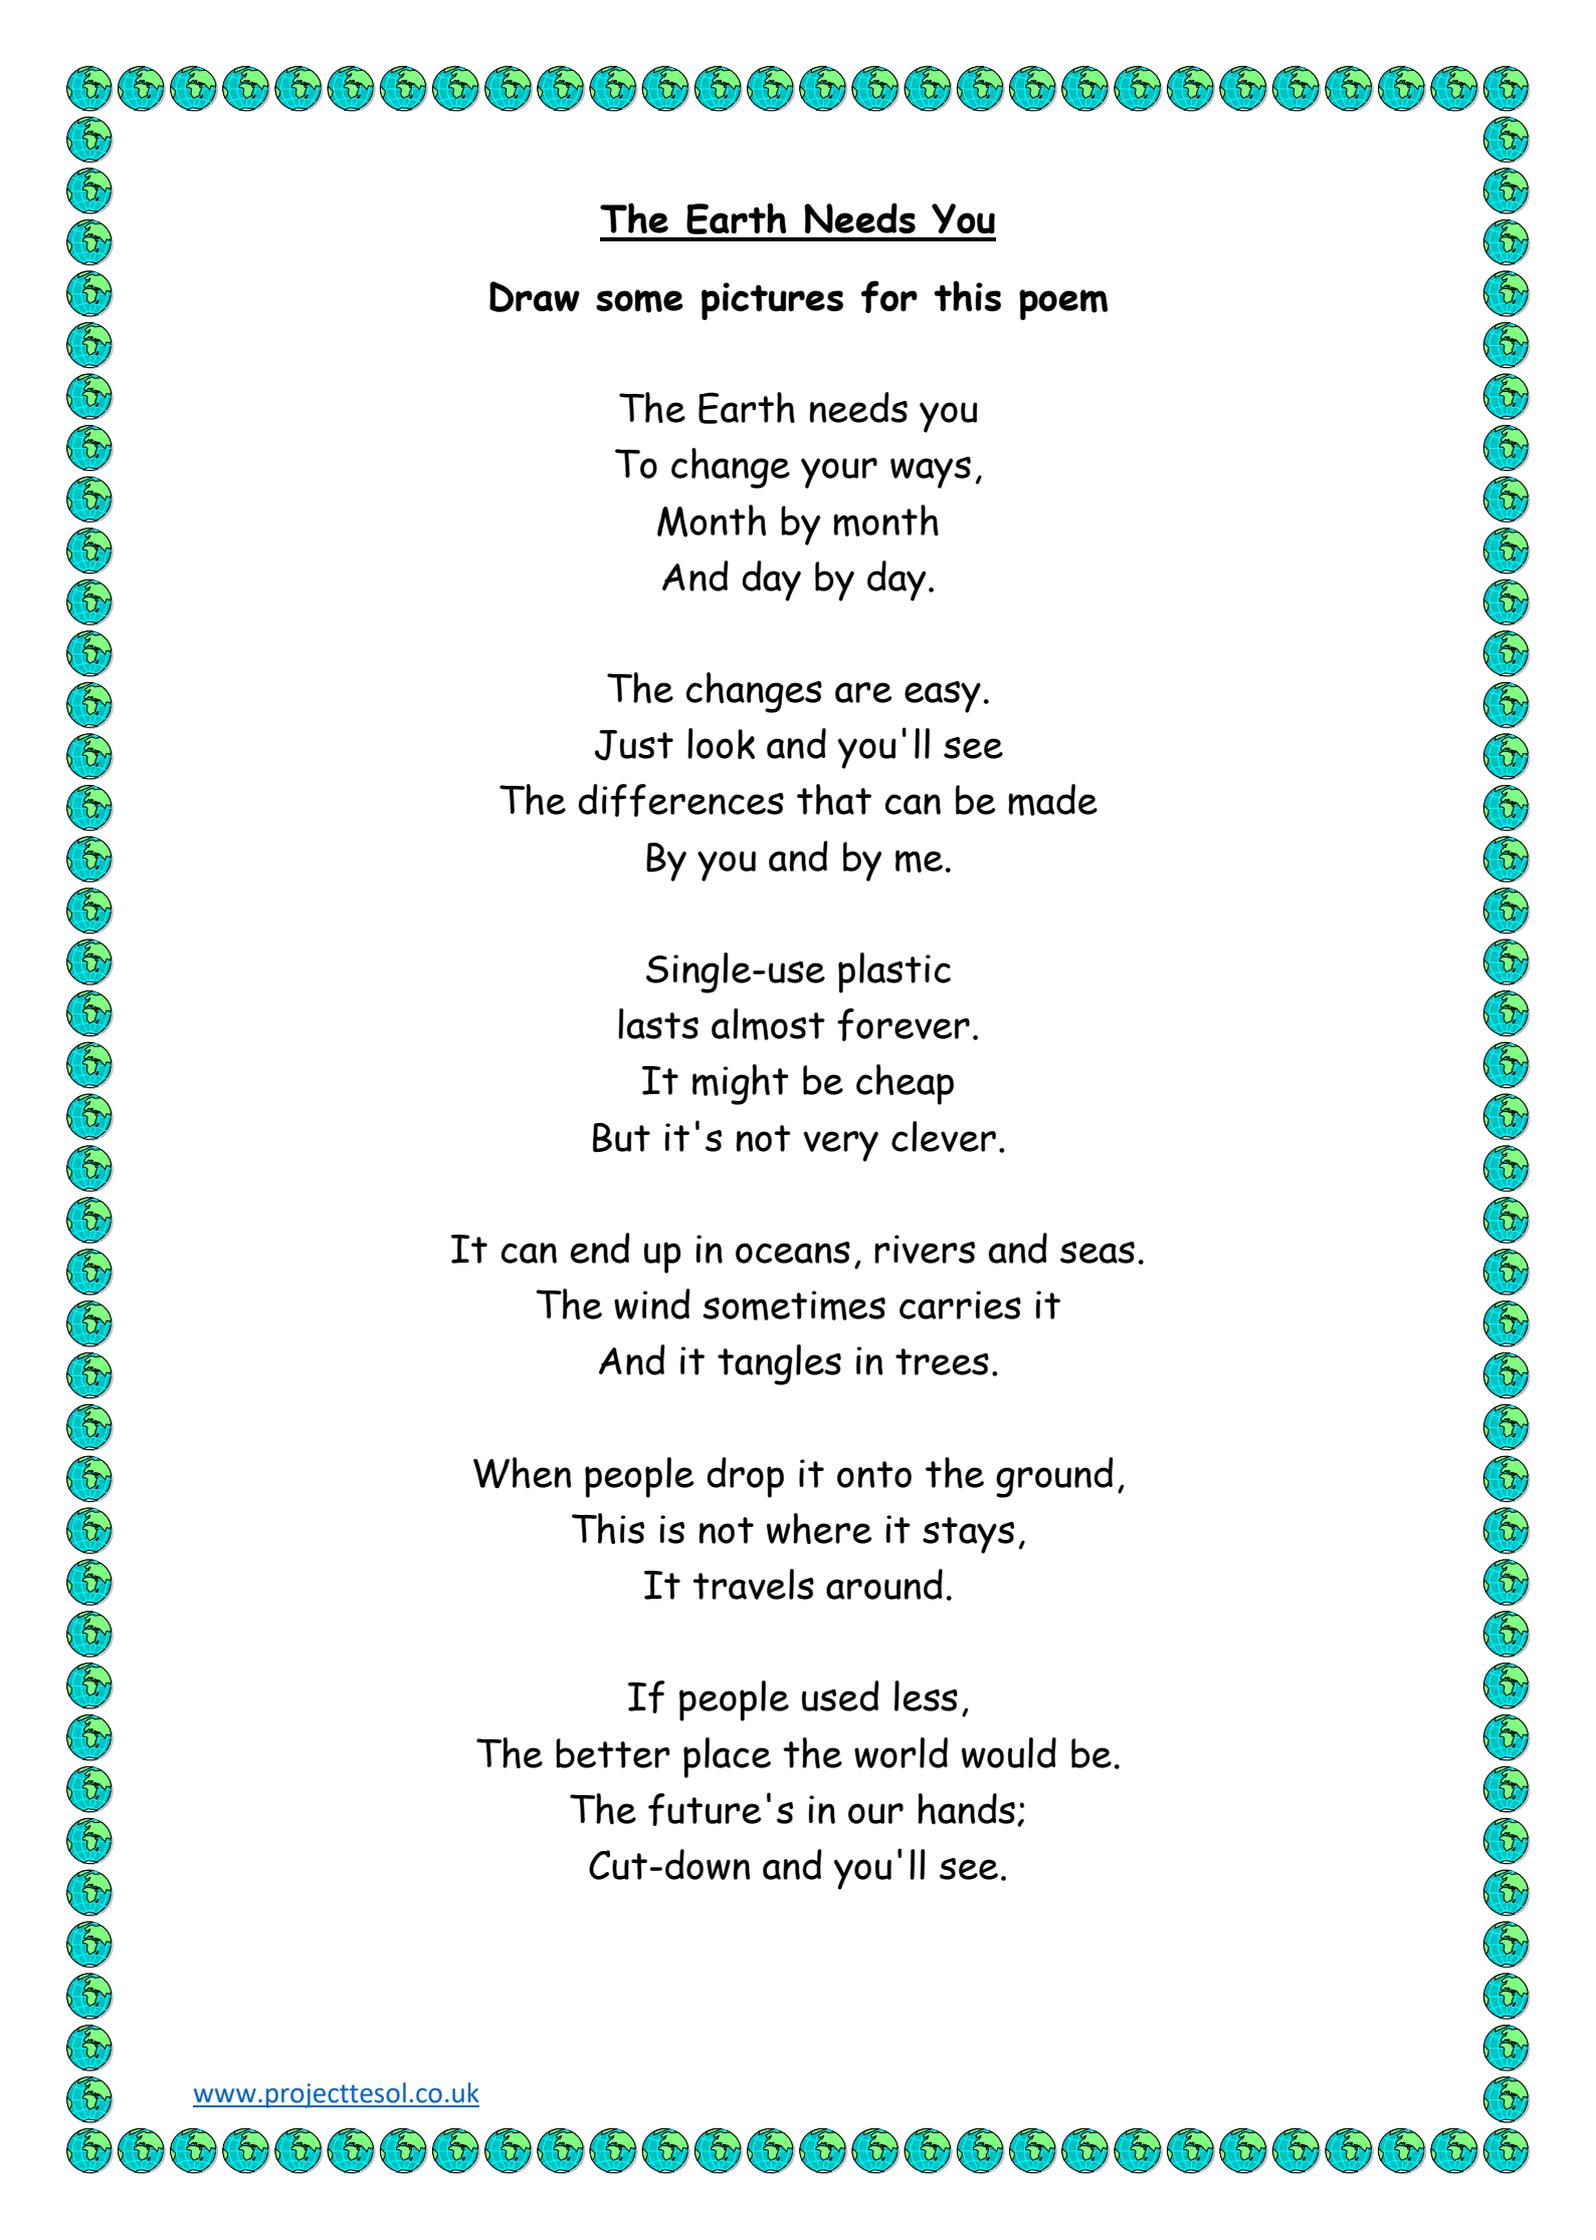

It can end up in oceans, rivers and seas.
The wind sometimes carries it
And it tangles in trees.

When people drop it onto the ground,
This is not where it stays,
It travels around.

If people used less,
The better place the world would be.
The future's in our hands;
Cut-down and you'll see.

Extra activity idea

- Divide learners into groups and give each group a part of the poem. Learners can then draw a picture for their part of the poem and hold it up as they read it out.
- Ask learners to make the poem into a song and sing it.
- Give learners props and ask them to act out each part of the poem.
- Share your learners work to our twitter page. We'd love to see it 😊 <https://twitter.com/ProjectTesol>
